Objective

Further my professional skill-set in web development and design by building powerful, responsive web applications to fit a wide range of needs for a variety of clients.

Skills & Abilities

JAVASCRIPT

· Able to develop complex, feature-rich web applications able to satisfy almost any business need

· Use of plain JavaScript, as well as JavaScript frameworks to meet specific requirements

· Implementation of JavaScript in both front-end and back-end environments

· Strong development foundation, using fundamental principles such as encapsulation for secure app development

NODE.JS

· Use of Node.js to build and test applications in a development environment

· Able to implement Node.js servers as a back-end for any web application

· Have deployed my own personal applications to hosting environments such as Heroku.com

VUE 2.0

· Regularly use the Vue 2.0 JavaScript framework to build strong, secure, encapsulated applications with ease

· Able to build useful and impressive web applications in record time by taking advantage of the framework's capabilities

· Personal experience integrating Vue applications with external both external design frameworks and back-end servers

· Integrated the Vuetify.js CSS framework to take my Vue apps to the next level with incredible front-end layouts

JQuery

· Utilization of basic jQuery functions to accomplish a variety of tasks

· Able to make calls to a variety of third-party APIs using jQuery's $ methods

HTML5/CSS3

· Built engaging and impressive front-end user interfaces

· Exceptional design skills stemming from a natural love of web-design

· Abundant experience with front-end Frameworks such as Bootstrap, MaterializeCSS, and Vuetify.js

· Enhanced my own personal portfolio with my design skill-set

Other Professional Abilities

MANAGEMENT

· Over a year of managerial experience at OfficeMax (now Office Depot, Inc.)

· Delegated and completed tasks

· Used teamwork skills to help drive store sales goals

· Maintained a balanced and productive work environment

SALES

· Over four and a half consecutive years of multiple types of sales, both inbound and outbound.

· Was consistently one of the top sellers in both retail stores I worked at

· Helped push my team of coworkers to meet store sales goals while pushing myself to meet personal goals

· Was responsible for selling insurance plans and services on consumer electronics, retaining and adding additional features to credit card accounts, and building and maintaining brand images

COMMUNICATION

· Communicated with members of management, coworkers, customers (both happy and unhappy), and colleagues in a variety of work environments

· Practiced professional communication with members of underwriting and other agents in my office with State Farm

· Used a variety of methods of professional communication, including corporate email and instant messaging, telephone communication, text messaging, and face to face meetings

LEADERSHIP

· In charge of guiding those on my shift, keeping them on task, and ensuring that everyone was doing their part to complete necessary tasks each day

· Took responsibility for mistakes made by staff during my shifts and was in charge of correcting them

Experience
